# Barack Obama Plaza

Moneygall, Co. Offaly

## The story of an Irish emigrant.

"From Moneygall to the White House" is an exciting exhibition that tells the story of how an Irish emigrant departed a small village in Co Offaly in 1851 in search of a better life. Little did Moneygall know that Falmouth Kearney the local shoemaker's son would become the 3rd Great Grandfather to

US President Barack Obama. The story is similar for so many with Irish ancestry and the exhibition tells the story of the Great Hunger and how it caused a mass of Irish to leave Irish soil.

The exhibition also highlights the influence of the Irish abroad and the office of US Presidents, and there is a short film to explain the connection and the build up to the visit of President Obama to Moneygall. Restaurants, convenience store, services station and meeting rooms also on site.

# Cliffs of Moher Visitor Experience

Liscannor, Co. Clare

## A world class visitor experience

The Burren & Cliffs of Moher is a UNESCO Global Geopark

The Cliffs of Moher are a Signature Discovery Point on the Wild Atlantic Way. Looming over Clare's west coast, the magnificent Cliffs of Moher stretch for 8 kilometres and rise to 214 metres over the Atlantic Ocean. The Cliffs of Moher is home to Ireland's largest mainland seabird colony with up to 30,000 breeding pairs.

There are over 600 metres of pathways and viewing platforms along the cliff edge which allow the visitor to enjoy a spectacular and healthy cliff walk. The amazing views of the Cliffs, the famous Aran Islands, Kerry Mountains, Galway Bay, O'Brien's Tower and the thousands of seabirds make the Cliffs a magical place. If you are lucky, you will hear and see the Cliffs Buskers playing traditional music along the Cliff pathways. Talking telescopes are dotted along the paths.

### Eco-friendly Visitor Centre

The Visitor Centre opened in 2007 and is set into the hillside offering an all-weather experience. The Centre is a unique structure which minimises the visual imprint on its setting and makes significant use of eco-friendly features such as geothermal heating, extensive recycling and state of the art waste management.

### O'Brien's Tower 1835

O'Brien's Tower was built by local landlord Cornelius O'Brien as a viewing point for visitors in 1835. The tower stands at the highest point of the Cliffs and offers the best photo opportunity from the top viewing platform. Amazingly, one can view 5 surrounding counties on a clear day.

# King's Island

King's Island Medieval Quarter, Limerick City

## Experience Medieval Limerick

The King's Island Medieval Quarter of Limerick City contains a wealth of built heritage.

Nicholas Street, the city's old main street links most of the sights — Bishop's Palace, now home to Limerick Civic Trust and open to the public; King John's Castle and some of the remains of the Walls of Limerick.

Limerick is often referred to as the Treaty City and across the bridge from the castle is the famous Treaty Stone upon which folklore says the 1691 Treaty was signed. Limerick City Museum is currently situated in City Hall.

Also on Nicholas Street are the old Alms Houses and the remains of the City Exchange,

which used to be the central hub of commercial activity in Limerick, and now forms one of the boundary walls of St Mary's Cathedral.

King John's Castle was built between 1200 and 1210 and was repaired and extended many times over the following centuries, most recently in 2013. It remains a most impressive Anglo-Norman Fortification.

Walking tours of both King's Island and other historic elements of the city are available. Enquire at the Tourist Office.

## St Mary's Cathedral

St Mary's Cathedral built in 1772 plays host to concerts and other performances during the year. The Cathedral faces towards the new part of Limerick across the Abbey River and the Hunt Museum. While the Cathedral is a beautiful and historic building, it is still used today for its original purpose, as a place of worship and prayer.

# Foynes Flying Boat & Maritime Museum

Foynes, Co. Limerick

## A unique experience for all

There was a time when the great Flying Boats criss-crossed the globe & the picturesque village of Foynes became the epicentre of the aviation world for aircraft preparing to take on the might of the Atlantic Ocean.

The award winning Foynes Flying Boat & Maritime Museum excitingly captures this truly unique story with a comprehensive range of exhibits & interactive displays for all ages to enjoy. Visitors have a once in a lifetime opportunity to board the world's only **Full-Size Boeing 314 Flying Boat** replica. You can even test your pilot skills by trying your hand at flying the **New Boeing 314 Flight Simulators**.

Walk in the footsteps of JFK, Bob Hope, Eleanor Roosevelt and many other dignitaries, movie stars and refugees who landed at Foynes during

World War II. Throughout the original terminal building this nostalgic & romantic era is told by way of original film in a 1940s style cinema, showcases covering the war years, airline memorabilia, control tower, radio & weather equipment & much more...

Foynes and the flying boats will be forever connected with the invention of Irish Coffee as they combined to give us this uniquely Irish treat. Learn all about this historic event by watching a wonderful 3D holographic show re-enacting this famous night back in 1943.

The restaurant offers many delights such as lunch or afternoon tea in a beautiful 1940s setting. Foynes is nestled along the banks of the Shannon Estuary on the Scenic N69 Route, a recommended **Wild Atlantic Way Discovery Point**.

## Life on the river today and yesteryear

The Maritime Museum allows you to relive the history & personality of the River Shannon. While Maritime may only conjure images of water & docks, the history charted at the museum will give you an insight into how the river changed & shaped the lives of those who lived on or near it through the centuries. Read the story of transportation & emigration on the river during the famine & see how American Confederate uniforms were made in Limerick & shipped from Foynes during the American Civil War. Uncover the tragic story of the Colleen Bawn & the weird tale of the "Windsor Castle Ghost Ship" & much more. Enter the original Control Tower from the 1940s which offers panoramic views of the majestic Shannon Estuary, Foynes Island, Village & Harbour.

Foynes is a Discovery Point on the Wild Atlantic Way and is part of the N69 Coastal Driving route (Limerick to Kerry). This busy seaport was Ireland's first transatlantic airport from 1939-1947. Foynes was where the first transatlantic

passenger flights from the United States arrived in 1939, and it was in Foynes in 1943 that Chef Joe Sheridan invented the world's most famous drink "Irish Coffee".

The Foynes Flying Boat & Maritime Museum, situated in the original airport terminal building,

recalls all this past with wonderful displays, original film and lots of rare memorabilia. There are 2 beautiful gardens either side of Foynes village, a kids playground in the centre of the village and wooded & coastal walks in the area.
